

## Mission-focused, security-first software, data, AI, and cybersecurity engineering for federal missions.

33 Solutions LLC brings over 20 years of experience across 500+ technology projects. We're experienced operators invested in your mission, and we measure success by your outcomes, not hours billed—building it right from the start to deliver secure, reliable systems made to last.

### DIFFERENTIATORS

- High-performing teams, stood up in a fraction of the time
- Senior operators who lead from the front, invested in your mission
- CISSP-certified — security-first engineering & risk advisory
- One team for the full stack: software, data, cloud, AI, and cybersecurity
- Developing AI since 2012 — well before the GenAI wave

### CAPABILITIES

#### Software Engineering

New systems, app development, and legacy modernization — scalable, performant front-end, back-end, and full-stack web applications in Python, C/C++, and modern web technologies.

#### Data Engineering & Big Data

Postgres, MongoDB, Hadoop, and Apache Spark. Pipelines, large-scale processing, migration, and analytics that turn big data into real-time insight.

#### Cloud & Infrastructure

Secure cloud and on-premises infrastructure with deep Kubernetes experience for enterprise-scale data and mission systems.

#### AI, Machine Learning & RAG

Advanced ML and retrieval-augmented generation (RAG) beyond chatbots — automation, analytics, and intelligent decision-making.

#### AI Governance

AI governance programs that meet OMB M-24-10 — framework development, pre-deployment risk assessment, vendor AI evaluation, and human-in-the-loop policy design.

#### Cybersecurity, Risk & Advisory

The full security & compliance lifecycle — ATO and POA&M management, Zero Trust, CMMC readiness, and HIPAA — staffed by cleared and Public Trust-eligible professionals.

### LEADERSHIP

#### Anthony Toreson

*Founder & CEO*

A former U.S. Army Military Intelligence systems integrator (33W / 35T), Anthony led cutting-edge SIGINT missions in support of Operation Iraqi Freedom. Over the 20+ years since, he has architected and delivered hundreds of modernization and transformation programs across government, financial services, and healthcare. He holds a Master of Computer Science (MCS) and an MBA from Rice University.

#### Michael Meis

*Chief Information Officer*

A U.S. Army veteran and cybersecurity leader with nearly two decades building and leading security and technology operations across DoW, USDA, DOE, healthcare, and financial services. He leads the firm's cybersecurity and risk practice, holds an MBA and an M.S. in Cyber Security & Information Assurance, and is CISSP- and PMP-certified.

## Let's talk about your mission.
